

Make Mealtime Smile!

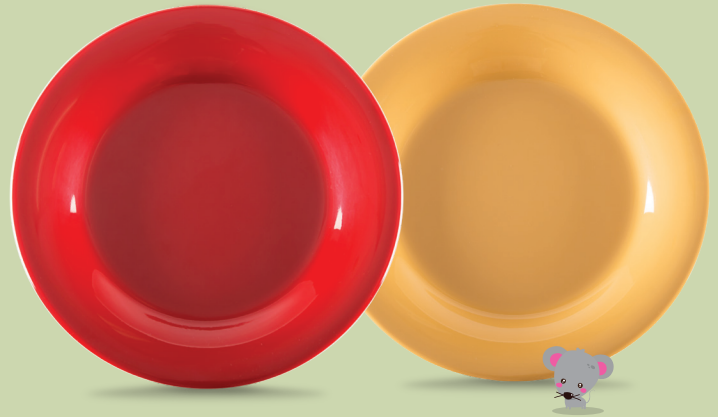

Mealtime is just more fun when served on these colorful 9" entrée plates from Aladdin. Available in vibrant red and yellow – two primary colors that children respond to, these warm colors can also stimulate appetite by subtly increasing heart rate and blood pressure, and triggering the release of serotonin.

Made of Alacite for strength and durability, they're perfect for pediatric patients, and add special brightness to any meal, year-round.

- Cheerful yellow and festive red colors add pizzazz to every meal.
- Attractive, wide-rim design.
- Lighter than china.
- Dishwasher safe.
- Ideal for areas where china dishes can't be used.
- Made from Alacite for long life and exceptional break resistance.

Tackle Eating Challenges

Encourage eating with these colorful 9" entrée plates. Their warm, vibrant colors can subconsciously trigger the feel-good hormone serotonin, and stimulate appetite by subtly increasing heart rate and blood pressure.

They're perfect for memory-care patients. Made of Alacite for durability and strength, their break-resistant properties make them a safe, long-lasting alternative to china – ideal for areas where china dishes can't be used.
