

Beverage and Condiment Caddies Exclusively For Aladdin SC Series Carts

Designed exclusively for Aladdin’s SC Series carts, our roomy Beverage Caddies enables you to transport a range of beverages with your tray-delivery carts, along with complementary items such as sweeteners, creamers, lids and even extra mugs and tumblers – right to patient floors.

Our unique system holds one to two air-pots or carafes per Caddy, and has closeable bins to keep condiments and other items handy and neat. Our Caddies can be used in a variety of configurations to meet your changing needs.

SC CART CADDIES STANDARD FEATURES

- Each caddy holds 1 or 2 air-pots/carafes.¹
- Caddies include a built-in rail to attach optional black plastic condiment storage bins (sold separately).
- No hardware required, it mounts magnetically!
- Strong, welded stainless-steel construction.
- Easy to remove for cleaning – no tools required.
- Versatile options allow for side or top mounted caddies.

ADDITIONAL ACCESSORIES (each sold separately)

- Black plastic bins (SCA-CB543B) easily snap in place for condiment and mug lid storage.
- Bin lids (SCA-CLCB) keep supplies in place and are clear so you can quickly see when it’s time to refill.
- Plastic bin dividers (SCA-DIVCB) separate storage bins to better organize multiple condiments.
- For additional condiment storage, stainless steel magnetic rail (SCA-RLCB) will hold three additional condiment bins.
- Stainless-steel drip tray (SCA-DRPTRY) alleviates drip concerns.

SCA-DBLTOPCADDY securely fits two air pots on top of the SC cart.

Aladdin's **patented** Beverage and Condiment Caddies use a strong and secure magnetic attachment system for quick and easy installation and removal – and no tools are required. Clean-up is a snap!

SC10S cart shown in use with SCA-DBLTOPCADDY on top.

The SCA-SGLTOPCADDY and SCA-DBLTOPCADDY work great with lower profile carts, allowing for easy reach of air pots. Just like our other caddies, these are easily installable and secured with magnets to the top of the cart.

³Not recommended for pass-through models. It is not recommended for use on low-profile carts due to height.
⁴Not recommended for use with airpots on carts that are more than 50" tall.
