

9" High Heat Disposable Dome for Aladdin 9" Disposable Plates, White (200 per case) - ADL46H

Product Images

Description

Our 9" high-heat disposable dome is the perfect serving solution in areas where standard reusable domes are prohibited for safety reasons or times when warewashing equipment is not available due to kitchen renovations or power outages. The sanitary, single-use dome is specially designed for use only on Aladdin 9" high-heat disposable plates in Convect-Rite and other non-Aladdin convection retherm meal systems. The dome's dual tab design provides a superior fit compared to "dust cover" style domes.

Pair with our [A46H](#) or [A46HDV](#) 9" high-heat disposable plates for a fully disposable serving solution in your convection retherm meal system!

Features:

- Dual tab fit designed for Aladdin 9" high-heat disposable plates only.
- Temperature-rated for use in Convect-Rite and non-Aladdin convection meal systems.
- Meets emergency-preparedness requirements.
- Soak-proof and puncture-resistant.
- White color for enhanced presentation.
- Sanitary, single-use product.
- Made in the USA.
