

Air Curtain Refrigerator, High Performance, Stainless Steel Sliding Door, Left Side Hinge, - ACR10SLSD

Product Images

Description

The Aladdin Temp-Rite high-performance air curtain refrigerators are specially designed for use during tray assembly, providing convenient access to pre-plated and pre-packaged food products. Multi-directional air flow creates a "curtain" of cold air that allows the door to remain open during mealtime tray assembly. Airflow is directed across the cabinet opening to keep hot air out and cold air in. This unit is designed to hold pre-chilled cold food at or below 41°F for 90 minutes with the door open. Standard touchscreen controller with digital display allows easy visibility of parameters, defrost cycles, and temperature. Connect the air curtain to your phone via Bluetooth for additional parameter controls and air temperature data exporting.

Maximize your tray assembly space without sacrificing performance. Our sliding-door refrigerators offer the same outstanding functionality as our standard models but with a space-saving twist. Our sliding doors glide on rigid rails, letting you open and close the refrigerators without repositioning, even in the most compact kitchen spaces.

NEW FEATURES:

- **Easy-to-read exterior digital temperature display**
- **User-friendly interface and touchscreen controls**
- **Downloadable app connects to the controller via Bluetooth for additional parameter control**
- **Exportable air temperature data for HACCP reporting**

STANDARD FEATURES:

- Durable stainless-steel exterior, interior and door
- Holds up to 10 standard 18" x 26" sheet pans
- Multi-directional air flow technology
- Pre-chill cycle extends cold food temperature performance
- 2-position tray slides with flat and slanted operation positions
- Sliding door allows for multiple side-by-side units
- Flush recessed side grip handles for easy positioning
- Automatic or manual defrost cycles
- Automatic condensate evaporator
- 5" Non-marking casters, four (4) swivel casters, 2 with brakes
- Removable panels for easy access cleaning and servicing
- Bottom-mounted compressor for stability
- 7' cord and plug assembly

Additional Information

Promo Text	New
Model #	ACR10SLSD
Capacity Type	Pans
Tray Spacing	4.25" Tray Spacing
System	Other
Caster Size	5"
Caster Type	Non-Marking
Electrical	120V, Single Phase, 60HZ
Agency Listing	ETL, ETL Sanitation
Warranty	1-yr parts, 1-yr labor, 5-yrs compressor (parts only)
Technical Note	The addition of options may change the electrical requirements and/or equipment dimensions. Please refer to spec sheet for additional information.
Country of Manufacture	United States
